

This is the Lakeview School District.

We would like to thank you for stepping up to partner with us in providing education to your children. This is a learning curve however, we will work together to get through this pandemic.

Here are updates to the calendar:

School is now open and due to the days missed, will be open for online instruction Thursday April 9 instead of the planned spring break.

School will not be in session on April 10, as a holiday.

School will also be held on Monday April 13 for online instruction.

Starting April 13 attendance will be taken everyday. Be sure to look for communication from your teachers about attendance.

We are requesting if you or your student have not spoken to a staff member by phone, email or other electronic communication, please contact the school immediately. We are reaching out in multiple ways, on a daily basis to communicate with you and your child.

Call the district 724-376-7911 and follow the prompts to your specific school. Please leave a message of how you can be reached.

All buildings are closed at this time, but learning is ongoing and your child's participation is vital, in order to not fall behind. Online and paper and pencil opportunities are also in place. Remote school attendance and participation is mandatory, again with attendance beginning on April 13.
