Lakeview School District COVID-19 Quarantine Guidelines for Close Contact to a Positive Case

Dear Parent/Guardian:

Your child has been exposed to a positive case of COVID-19.

Quarantine Options: The PA Department of Health recommends, but is no longer *requiring* quarantines for close contacts. As a parent of a close contact, you have the ability to select one of the following options in the context of your child's educational and medical needs.

Option 1: 5-Day Quarantine

The student should return on day six (6) if they are symptom free and wear a mask for an additional five (5) days while on school district property. A negative test is preferred, but not required due to limited availability and/or testing timelines.

Option 2: 5-Day Quarantine

The student should return on day six (6) if they are symptom free. However, the parent/guardian may choose to keep a student home for an additional five (5) days with a written excuse from a physician.

Option 3: "Parent Choice" – The parent/guardian may choose to have their child remain in school, unless symptoms develop or a positive test occurs.

Option 3 Requirements: In the interest of protecting the health of other students and our community, we are requesting your full cooperation with these measures. Failure to comply with parent choice requirements will result in students being asked to stay home and isolate until the end of quarantine time (5 days).

1. Please use the COVID-19 Symptom Screening Tool below to monitor your child's health each morning prior to school and each evening. If your child is experiencing any of the symptoms, please keep your child home. It is also recommended that you contact your physician.
2. It is recommended, but not required, for close contact to a positive COVID-19 individual to wear a mask during the ten days following their close contact date.
3. **Please note that masks are still required on school transportation as per Federal Law.**

❖ Important: Please communicate which Quarantine Option you are selecting by calling 724-376-7911, ext. 6116 or emailing your school nurse at a_grim@docs.lakeview.k12.pa.us so your child's attendance will be recorded correctly.

Note: Your child may attend school as long as they are NOT experiencing ANY of the symptoms listed below.

COVID-19 Symptom Chart	
<ul style="list-style-type: none">• Fever (100.4 or Higher)• Cough• Shortness of Breath• Difficulty Breathing• New Olfactory Disorder: A Loss in the Ability to Smell or a Change in the Way Odors are Perceived• New Taste Disorder: A Loss in the Ability to Taste or a Distorted Perception of a Flavor• Congestion or Runny Nose	<ul style="list-style-type: none">• Chills• Rigors: Sudden Chills or Shivering Accompanied by a Rise in Temperature, often with Sweating• Myalgia: Muscle Aches or Pain• Headache• Sore Throat• Nausea or Vomiting• Diarrhea• Fatigue

Please call the nurse at any time during the quarantine period either for questions, concerns, or to update us on how your family is doing.

- Reminder: Remote learning is an option for COVID-related issues only.

Lakeview School District COVID-19 Isolation Guidelines for Testing Positive

If You Test Positive for COVID-19 (Isolate)

Everyone, regardless of vaccination status.

Stay home for 5 days from symptom onset.

If you have no symptoms or your symptoms are resolving after 5 days, you can return to school.

Continue to wear a mask around others for 5 additional days.

If you have a fever, continue to stay home until your fever resolves without fever-reducing medication.

Note: Your child may attend school after 5 days of isolation as long as they are **NOT** experiencing **ANY** of the symptoms below and wear a mask for an additional 5 days.
