

How to Clear Your Browser Cache

Introduction

It is sometime necessary to clear your browser cache so that updated LMS pages are visible to the user. This help guide explains how to clear the cache in three different browsers, Internet Explorer, Google Chrome and Mozilla Firefox.

Internet Explorer (9, 10 and 11)

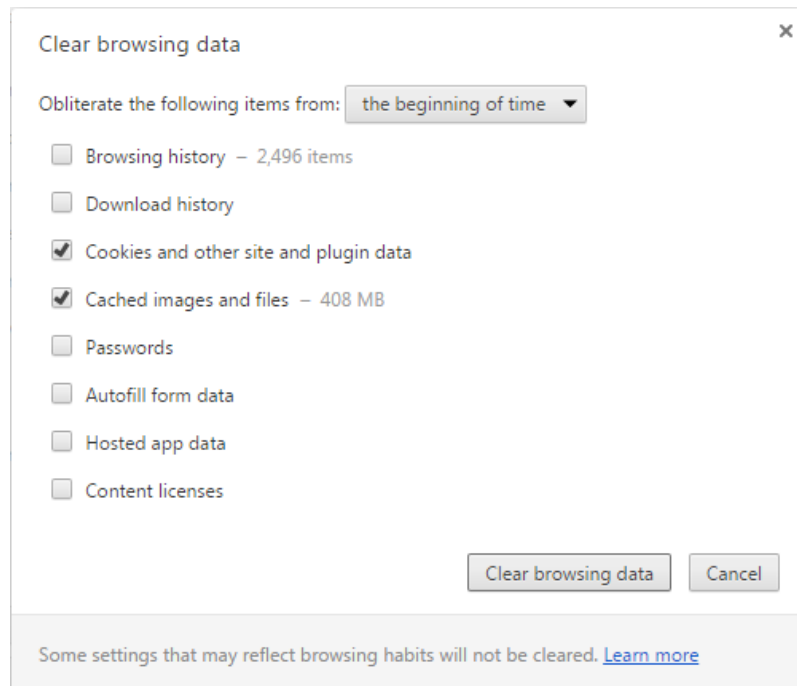

1. Click the Tools icon  in the top right of the page.
2. Select > Safety > Delete browsing history.
3. Check/Uncheck the item boxes as circled below:

4. Click the Delete button to clear the browser cache.

Google Chrome

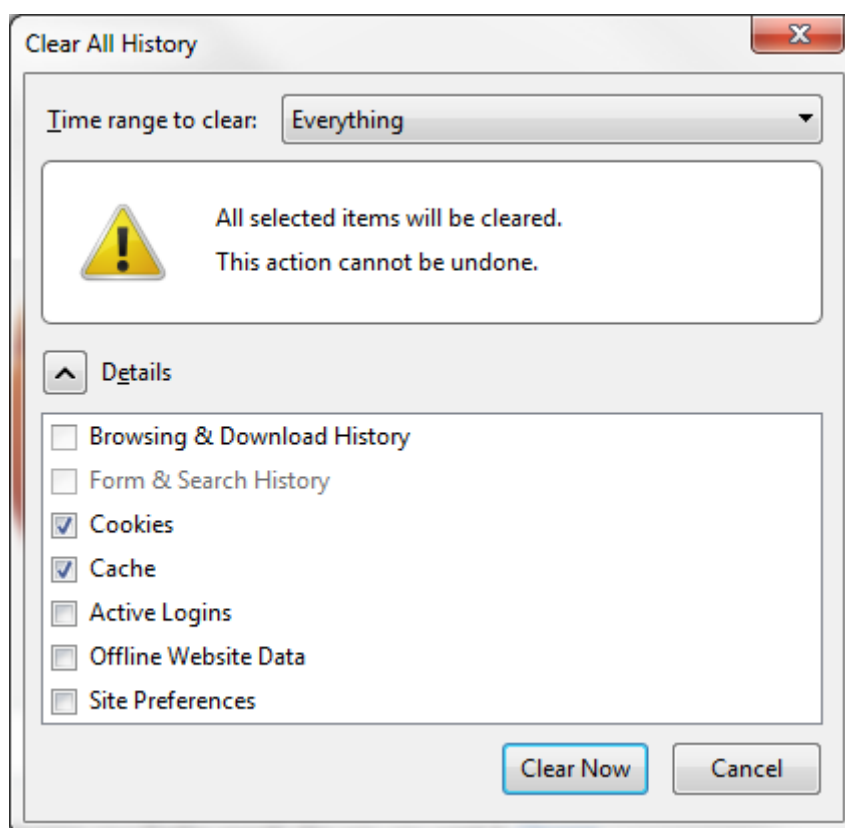

1. Click the Menu ☰ icon in the top right of the page.
2. Select More tools > Clear browsing data.
3. Select **beginning of time** to delete everything, as shown below.
4. Check/Uncheck the item boxes as shown below:

5. Click **Clear browsing data** to clear the cache.

Mozilla Firefox

1. Click the Menu  icon in the top right of the page
2. Select History > Clear recent history
3. Select **everything** to delete everything as shown below.
4. Check/Uncheck the item boxes as shown below:

5. Click **Clear Now** to clear the cache.
